The baby of the new generation

A mini robotic lawnmower created to have even less impact on the environment and equipped with the most advanced features. The latest generation processors, brushless motors, powerful batteries and 18 cm blade allow the robot to manage up to 4 separate areas. Excellent efficiency with perfect and fast results from a robot weighing just 7 kg and measuring 42 cm. The Elite and Elite S+ models are equipped with connect module that allows you to manage, interact with and monitor the functions of the robot remotely.
